

INFORMATION DOCUMENT ABOUT THE COMMERCIAL FLIGHT CONTROL COMPUTERS

1. This document determines the features of the commercial flight control computers (FCCs) that can be used in the TEKNOFEST Rocket Competition. **Table 1** shows the usage status of commercial FCCs in the different competition categories:

Category	Commercial Flight Control Computer Use
A4 International Category	One (1) Use Required

Table 1. Commercial Flight Control Computer Use by Categories

2. The commercial FCCs used must be approved by the TEKNOFEST Rocket Competition Referee Committee. **Table 2** lists the commercially available systems allowed to be used in the TEKNOFEST Rocket Competition. If the team cannot find any of the FCC listed below, they can ask permission to use the FCC that can be procured at their homeland.

Number	Commercial Flight Control Computer Brand/Model
1	ADREL DEPLOYMAX SINGLE DEPLOYMENT ALTIMETER
2	ENTACORE AIM ALTIMETER
3	LIGHTNING BUG DUAL DEPLOYMENT ALTIMETER
4	RRC3 "SPORT" ALTIMETER
5	EasyMini ALTIMETER
6	TELEMETRUM
7	Stratologger CF
8	TeleMega
9	Sky Logic V2 (Markas Technologies product)
